## Inflatable FAQ

Here are answers to some common questions:

### **Are the Inflatables fire-proof?**

*Yes, the fabric is coated at manufacture to meet BS5438, a certificate is provided.*

### **Do they come with built in fans?**

*Yes, the 150mm 6" fans sit at the top of the inflatable.*

### **How heavy are they?**

*Approx. 1.5-2kg each.*

### **Are they supplied with bags?**

*Yes, usually two inflatables per bag, unless otherwise requested.*

### **Do they have lights inside?**

*Yes, the stars have a pulse strobe lamp or a white lamp included in the price. Or you can upgrade to a 16 colour LED, see below for more.*

### **How are they hung?**

*They are suspended from a small chain at the top of the fan, which is connected to a swivel hook and then spring hook.*

*This can then be attached to a permanent or temporary anchor point.*

### **Can you print on them?**

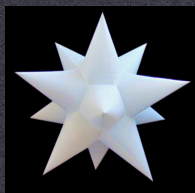

*Yes - there are some sample sizes and prices on following pages.*

### **Can they be used outdoors?**

*Not suitable for outdoors as they have an open fan at the top which would let in rain. OK in marquees or covered areas, would fit IP44 Ceeform type enclosed couplings to comply with regs.*

# MORE INFO

## Technical

The majority of our inflatables hang downwards and are continuously kept inflated by a small fan in the top, using domestic 240v supply rated at 3amp.

sizes range from 3ft (1m) to 10ft (3m)

All inflatables come with 10m leads. They all include a colour Led lamp, with many effects including fade and pulse, or colours can be set to match the mood.

The images are thermally printed in CMYK, millions of colours on strong hang-glider type material which is Ripstop Nylon Flame retarded to B.S.

The inflatables are very easy to install..pretty much straight out of the bag. You will need a domestic power supply, they come with 10m of cable and a suitable anchor point..like a lighting truss or similar, where you can clip the springhooks of the inflatable, they do not weigh more than about 1.5-2kg each.

You should check the clearance height of your ceiling as you don't really want them at hand-level.

**Not suitable for Outdoor Use.** (With the exception of the freestanding models.)

## Artwork Format (if applicable)

Would need full artwork for printed models.

Either Illustrator type artwork .ai, .pdf, .eps, .cdr, .svg

and Photoshop for photographic type images. Very high resolution/size required .psd, .tiff, .bmp.

## Production Times & Deposits

Production lead time is currently 2-3 weeks from confirmation, artwork confirmed and deposit received.

Initial minimum 40% deposit required(for customised jobs), balance prior to despatch.

Print or other specifications cannot be changed once we have committed to print, cancellation after this time will mean your deposit will be taken by Lucid as compensation.

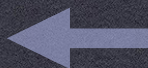

No jobs can be guaranteed within one week of order, but may still be possible without guarantee.

## Payment

Payment can be made by credit/ debit card(recommended for deposit) by Paypal email transfer, Paypal account not required, we email a request, you pay on line, with debit /credit card.

or BACS bank transfers (up to 2 days), CHAPS (same day) business cheques (5days)

**Sorry we're not set up for credit accounts.**
